DISCOVERY READINESS SCORE

|                                        |                        |         |
|----------------------------------------|------------------------|---------|
| Agent access (robots.txt)              | <div><div></div></div> | 10/10   |
| Structured data (JSON-LD)              | <div><div></div></div> | 11.3/15 |
| Product feeds (products.json, sitemap) | <div><div></div></div> | 10/10   |
| llms.txt                               | <div><div></div></div> | 5/5     |

Readiness-only audit: discovery (public-surface) signals. The transaction layer (cart, checkout, live agents) was not tested.

## EXECUTIVE SUMMARY

- All 13 agent user-agents are allowed by robots.txt.
- 2 of 8 sampled product pages expose no server-rendered Product structured data — agents that don't execute JavaScript (most crawler-class agents) can't read price, availability, or SKU.

## HOW YOU COMPARE

Your discovery-readiness score of **91/100** — the public-surface signals every store exposes (robots, structured data, feeds, llms.txt) — places you in the **top 46%** of a cohort of 50 stores (median 85.5). 23 score higher.

Cohort: Top 50 Shopify-powered stores, June 2026. These are large, well-known stores, so a low rank here is a conservative read — the typical store scores lower. Discovery (public-surface) only; transaction-layer and dispute benchmarks are not cohort-derived.

CAN EACH AGENT BUY FROM YOU?

| AGENT              |          | DISCOVER | READ PRODUCT | REACH CART | REACH CHECKOUT | LIVE OUTCOME    |
|--------------------|----------|----------|--------------|------------|----------------|-----------------|
| ChatGPT (OpenAI)   | INFERRED | yes      | yes          | —          | —              | not live-tested |
| Perplexity         | INFERRED | yes      | yes          | —          | —              | not live-tested |
| Claude (Anthropic) | INFERRED | yes      | yes          | —          | —              | not live-tested |
| Google (Gemini/AI) | INFERRED | yes      | yes          | —          | —              | not live-tested |
| Amazon (Rufus)     | INFERRED | yes      | yes          | —          | —              | not live-tested |
| Apple Intelligence | INFERRED | yes      | yes          | —          | —              | not live-tested |
| Meta AI            | INFERRED | yes      | yes          | —          | —              | not live-tested |
| ByteDance (TikTok) | INFERRED | yes      | yes          | —          | —              | not live-tested |

Rows tagged INFERRED were not live-tested (only ChatGPT, Perplexity and Claude are run as live purchases today). Their cart/checkout cells are inferred from robots access and the shared automated probe, not a per-agent purchase attempt. "Discover" = allowed by robots.txt; "Read product" = required structured-data fields present.

DISCOVERY LAYER

13/13 agent user-agents allowed by robots.txt.

| FEED          | STATUS | NOTES                               |
|---------------|--------|-------------------------------------|
| products.json | pass   | products.json accessible            |
| sitemap.xml   | pass   | sitemap ok, 10 product urls sampled |
| llms.txt      | pass   | llms.txt present                    |

| PRODUCT PAGE                      | JSON-LD FIELDS      | PROBLEMS                                                      |
|-----------------------------------|---------------------|---------------------------------------------------------------|
| /products/beam-frother            | 5/5                 | clean                                                         |
| /products/gift-cards              | not server-rendered | no server-rendered Product schema (JavaScript-only or absent) |
| /products/shaker-bottle           | not server-rendered | no server-rendered Product schema (JavaScript-only or absent) |
| /products/collagen                | 5/5                 | clean                                                         |
| /products/glow-by-jenn-todryk     | 5/5                 | clean                                                         |
| /products/beam-green-powder       | 5/5                 | clean                                                         |
| /products/beam-greens-15-servings | 5/5                 | clean                                                         |
| /products/beam-creatine           | 5/5                 | clean                                                         |

WHERE AGENTS DROP OFF

The largest cluster of failures is at **Product page (read details)** — fix #1 below targets this stage.

- **Product page (read details):** 2 product pages with structured-data gaps

## FIX LIST

| # | FIX (RANKED BY IMPACT ÷ EFFORT)                                                                                                                                                                                                                 | IMPACT | EFFORT |
|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|--------|
| 1 | <b>Server-render complete JSON-LD Product/Offer fields</b><br>Price, currency, availability and identifiers are what agents quote before visiting — and they must be in the initial HTML, since most crawler-class agents don't run JavaScript. | 4/5    | 2/5    |
| 2 | <b>Unblock the add-to-cart → checkout path</b><br>The automated probe could not reach checkout; every agent purchase fails at this wall.                                                                                                        | 5/5    | 3/5    |

## COPY-PASTE FIXES

### JSON-LD Product/Offer — fill the fields agents quote

Serve this in the initial HTML (server-rendered), not injected by JavaScript — most crawler-class agents don't run JS. Affected pages: /products/gift-cards, /products/shaker-bottle.

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "Product",
  "name": "<product title>",
  "image": ["https://shopbeam.com/<product-image>.jpg"],
  "sku": "<your SKU or GTIN>",
  "brand": { "@type": "Brand", "name": "Beam" },
  "offers": {
    "@type": "Offer",
    "price": "<numeric price, no currency symbol>",
    "priceCurrency": "USD",
    "availability": "https://schema.org/InStock",
    "url": "https://shopbeam.com/products/<handle>"
  }
}
</script>
```

---

## METHODOLOGY & CAVEATS

- This is a **readiness-only** audit: it measures the public storefront (robots, feeds, structured data, checkout reachability). Order classification and dispute exposure require the merchant's order data and are not included here.
- Discovery checks read the **initial HTML response** and do not execute JavaScript. Structured data injected client-side will read as missing here — which is also how agents that don't run JS (most crawler-class agents) see the page.
- Per-agent reachability is inferred from robots access and one shared automated probe except for ChatGPT/Perplexity/Claude, which are run as live purchases. Inferred rows are labeled.
- Automated checks stop at the checkout information page; no purchase is ever completed and no payment fields are entered. CAPTCHA presence is recorded, never solved or bypassed.
